

Maintenance of Academic Infrastructure

2017-18

The Institution is fully owned by the Government of West Bengal Government development grants are one of the major sources for procuring, augmenting educational resources like books, journals, laboratory consumables and library resources. Upon receiving of such grants a meeting is conducted by the Principal with all the Heads and the funds are distributed proportionately. Special grants like RUSA whenever received after evaluative cycles and application for these constitute another major means for maintaining, utilizing educational resources and support facilities.

The gardens inside the College Campus, especially the Medicinal Plant Garden is looked after by the Department of Botany. • Classrooms are cleaned daily by Non-teaching staff, sweepers and maintained by PWD Civil and Electric. • Laboratories are maintained by teaching faculty, non teaching staff and also the students. The chemicals, glass goods, instruments, equipments are purchased from the Developmental and/ or other Grants. • Internet is available to all teaching, non-teaching staff during office hours. Teachers and students can avail internet facility from library also. INFLIBNET facility is active. LAN connection throughout the college ensures internet access in every building including the library. Access to e-journals through INFLIBNET is also available. • Field for Sports and Games is maintained by PWD. • Second instalment of RUSA Grant has been received in 2016-17. The sanctioned amount has been spent in up gradation and campus.
